

# DEVPOPS

Feature Overview

Release 21.3

# GET IT ON GITHUB

- <https://github.com/blacksheep-crm/devpops>

The screenshot shows the GitHub repository page for `blacksheep-crm/devpops`. The repository has 5 stars and 6 forks. The main branch is `main` with 1 branch and 0 tags. The repository description states: "Combining utilities from blacksheep and the Siebel community into a unique developer toolkit." The repository contains 82 commits. The file list includes:

File Name	Commit Message	Commit Time
BCRM NEO RR Data.sif	Add files via upload	last month
BCRM Server Manager Service.sif	Add files via upload	last month
BCRM Workspace Helper Data.sif	Add files via upload	2 months ago
BCRM Workspace Helper UI.sif	Add files via upload	2 months ago
FWK Runtime.xml	RR Reader update	5 days ago
README.md	Update README.md	3 days ago
SiebelQueryLang.js	Add files via upload	2 months ago
postload.js	bugfixes, menu is now toolbarizable	3 days ago
ui.multiselect.js	Add files via upload	27 days ago
v	Update v	3 days ago

The right sidebar shows the repository's About section, which includes a Readme link. The Releases section indicates that no releases have been published, and the Packages section indicates that no packages have been published. The Languages section shows that JavaScript accounts for 100.0% of the code.

# READ THIS!

devpops

---

STRICTLY EDUCATIONAL. DO NOT USE IN MISSION-  
CRITICAL ENVIRONMENTS!

---

Got it?  
Good, let's check it out

# WEB TOOLS WHODUNNIT

The screenshot shows the Oracle Siebel Web Tools interface. The left sidebar lists various Siebel Object types, with 'Business Service' selected. The main area displays a table of Business Services. The table has columns: W, Name, Changed, Project, Cache, and Class. The 'W' column contains status icons: 'S S S' for 'BCRM RR Reader', 'SADMIN is editing in dev\_sadmin\_rrr333/1' (a tooltip), 'S' for 'BCRM Server Manager Service', and 'S' for 'BCRM Server Manager Service'. The 'Changed' column has checkboxes, and the 'Project' column has '00Phoenix'. The 'Class' column has 'CSSService' and 'CSSEXEDDL SVC'.

W	Name	Changed	Project	Cache	Class
S S S	BCRM RR Reader	<input checked="" type="checkbox"/>	00Phoenix		CSSService
SADMIN is editing in dev_sadmin_rrr333/1		<input checked="" type="checkbox"/>	00Phoenix		CSSService
S	BCRM Server Manager Service	<input checked="" type="checkbox"/>	00Phoenix		CSSEXEDDL SVC

Shows who is currently editing an object and in what workspace/version

# WORKSPACE FAST INSPECT

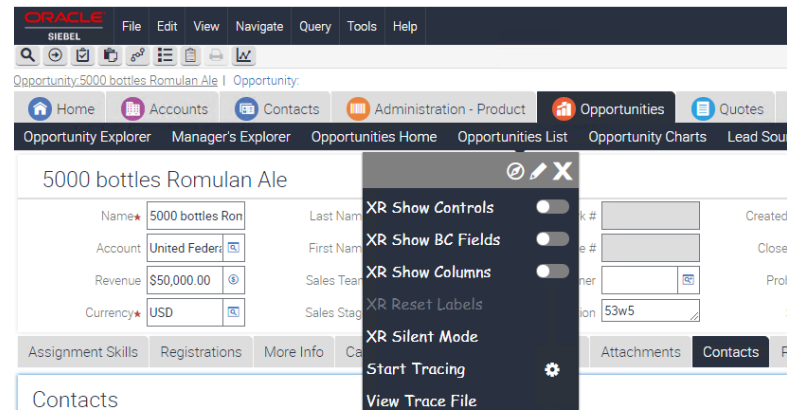

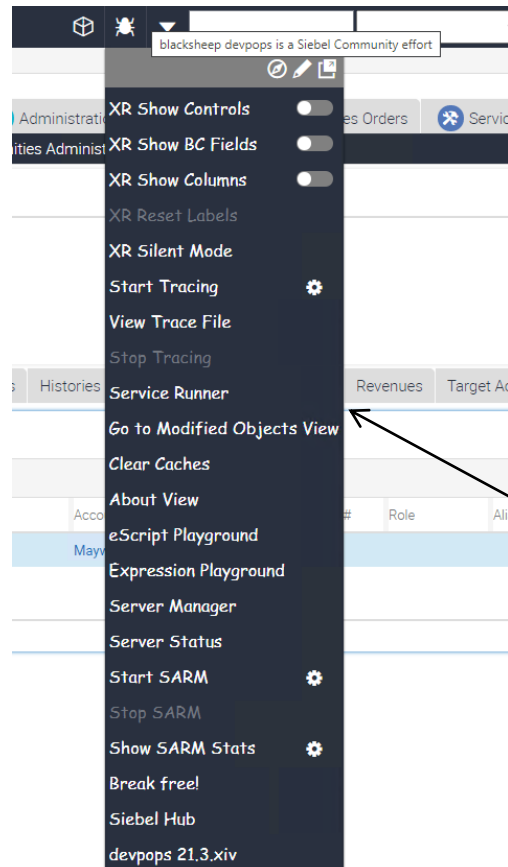

Workspace opened and inspected instantly (and displayed in toolbar as it should be)

Right-click cube icon in application and select workspace / version

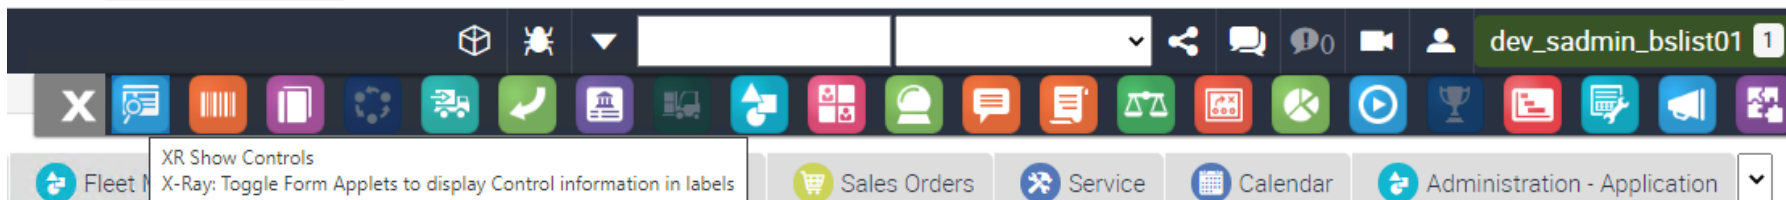

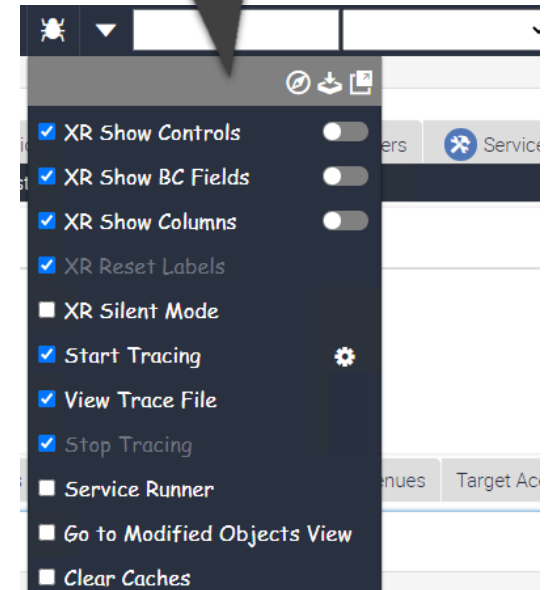

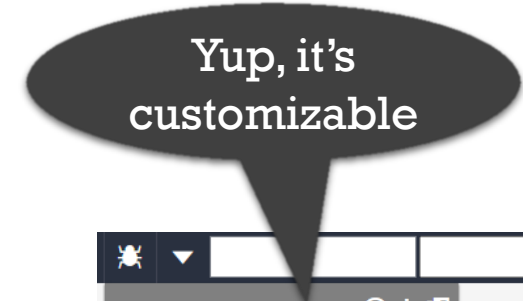

# APPLICATION MENU

New “Debug” menu in application

- Classic Style
- Floating Undocked
- Floating Toolbar

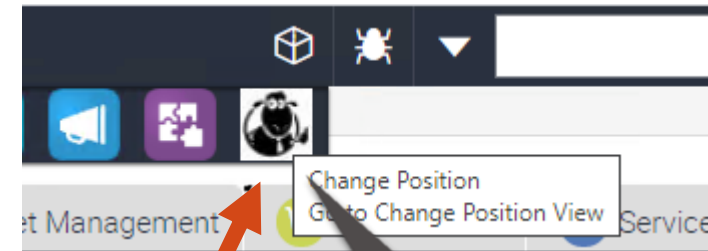

# CUSTOMIZABLE MENU

- Override menu in BCRMCustomizeDebugMenu function

```
145 //blacksheep devpops
146 //EDUCATIONAL SAMPLE!!! DO NOT USE IN PRODUCTION!!!
147
148 BCRMCustomizeDebugMenu = function () {
149     //put your menu customizations here
150     //visit the BCRMCreateDebugMenu method to see pre-defined menu items
151     //Example:
152     /*
153
154     //new item (copy one from BCRMCreateDebugMenu function and modify)
155
156     BCRM_MENU["GotoView2"] = {
157         "seq": 101,
158         "enable": localStorage.getItem("BCRM_MENU_ENABLE_GotoView2") == "false" ? false : true,
159         "label": "Change Position",
160         "title": "Go to Change Position View",
161         "onclick": function () {
162             var r = BCRMCloseDebugMenu();
163             SiebelApp.S_App.GotoView("Change Position View");
164             return r;
165         },
166         "img": "https://avatars.githubusercontent.com/u/31369901?s=32&v=4"
167     };
168
169     };
```

Yes, you can have custom icons

# X-RAY SHOW CONTROLS

- Toggle label to show Control UI Type and Name
- Resolves Multi-Value Fields and shows MVG/Assoc applet names (cool, ain't it?)

The screenshot displays a web application interface for managing opportunities. The main form is titled "5000 bottles Romulan Ale" and contains various input fields and buttons. A context menu is open on the right side of the screen, listing several actions related to the "XR" (X-Ray) feature.

**Form Fields and Buttons:**

- Buttons: +Button:NewRecord, Button:DeleteRecord, Button:NewQuery, NewRecord, DeleteRecord, NewQuery
- Fields: JText:Name5 (5000 bottles Rom), Shuttle:Key Contact Last Name2, FINCORP Contact Assoc Applet, FINS Primary Contact Mvg Applet, JText:Key Contact Work Phone #2, JText:Created2 (9/6/2019), JText:Key Contact First Name2, JText:Key Contact Home Phone #2, JDatePick:CloseDate2 (9/6/2019), JCurrencyCalc:Revenue2 (\$50,000.00), Shuttle:SalesRep2, Team Member Assoc Applet, Sales Team Mvg Applet, SADMIN, Shuttle:Partner Led Name2, Channel Partner Assoc Applet, Partner Led Name Mvg Applet, JComboBox:Probability2 (0), JComboBox:SalesStage2 (Approved), JTextArea:Description2 (53w5), JCheckBox:Secure2 (checked), JText:First, JText:Last, JText:Job Title, JComboBox:M, JDateTimePick:Opportunity, JDateTimePick:Opportunity, JText:Work Ph, Mailto:Email, Mvg:Account, JText:Account, JText:Fax Ph, JComb

**Context Menu Actions:**

- XR Show Controls (toggle)
- XR Show Columns (toggle)
- XR Reset Labels
- XR Silent Mode
- Start Tracing (toggle)
- View Trace File
- Stop Tracing
- Service Runner
- Go to Modified Objects View
- Clear Caches
- About View
- eScript Playground
- Expression Playground
- Server Manager
- Server Status
- Start SARM (toggle)
- Stop SARM

# X-RAY SHOW BC FIELDS

- Shows BC Field, Type, Length, Required/Calc flags
- Shows BC and Link information for each applet

The screenshot displays the Siebel CRM interface for an opportunity record titled "5000 bottles Romulan Ale". The record is highlighted with a red border. The "Primary Business Component: Opportunity" is indicated at the bottom of the record. Below the record, the "Contacts" applet is visible, showing a list of contacts. A tooltip for the "Business Component: Contact" is displayed over the "Contacts" applet, showing the link "Link: Opportunity/Contact", type "Type: M:M(S\_OPTY\_CON)", and parent "Parent BC: Opportunity". The "XR Show BC Fields" menu is open, showing options like "XR Show Controls", "XR Show BC Fields", "XR Show Col", "XR Reset Labels", "XR Silent Mode", "Start Tracing", "View Trace File", and "Stop Tracing".

# X-RAY SHOW TABLES/COLUMNS

- Shows Table.Column for each control
- Shows calculation expression in case of calculated field

The screenshot displays the Oracle Siebel CRM interface. The top menu bar includes File, Edit, View, Navigate, Query, Tools, and Help. The main content area shows the '5000 bottles Romulan Ale' record in the Opportunities List. The form contains various fields with their corresponding table and column names, such as S\_OPTY.NAME, S\_ORG\_EXT.NAME, S\_OPTY.SUM\_REVN\_AMT, S\_OPTY.CURCY\_CD, MVF: S\_CONTACT.LAST\_NAME, MVF: S\_CONTACT.FST\_NAME, MVF: S\_CONTACT.WORK\_PH\_NUM, MVF: S\_CONTACT.HOME\_PH\_NUM, S\_OPTY.SUM\_EFFECTIVE\_DT, S\_OPTY.SUM\_WIN\_PROB, S\_OPTY.SECURE\_FLG, S\_STG.NAME, and S\_OPTY.DISC\_TXT. A context menu is open over the form, displaying options like 'XR Show Controls', 'XR Show BC Fields', 'XR Show Columns', 'XR Silent Mode', 'Start Tracing', 'View Trace File', 'Stop Tracing', 'Service Runner', and 'Go to Modified Objects View'.

# X-RAY SILENT MODE / TOOLTIP

- Data is aggregated in label tooltip
- Run Silent Mode to collect without changing UI

# SQL TRACING

Click spur icon for options

The image shows a 'Start Tracing Options' dialog box and a 'Start Tracing' menu. The dialog box has the following fields:

- File Path: C:\Siebel\ses\siebsrvr\temp\
- Retain File: true
- Trace Type: SQL
- Additional Event Tracing: Presentation Model
- Slow Query Threshold (ms): 100

Buttons at the bottom: Save & Go, Save, Cancel.

The 'Start Tracing' menu is open, showing the following options:

- Start Tracing (with a gear icon)
- View Trace (with a tooltip: Start SQL/Allocation Tracing Kudos to Jason)
- Stop Tracing
- Service Runner
- Go to Modified Objects View
- Clear Caches
- About View
- eScript Playground
- Expression Playground
- Server Manager

# MESSAGE BAR: STOP'N'VIEW

Fastest option to stop tracing  
and open viewer

The screenshot displays the Siebel CRM interface. At the top, the 'MESSAGE BAR' contains the 'Stop'n'View' button, which is highlighted. Below the message bar, the 'Accounts Home' section shows the 'United Federation of Planets' account details. To the right, the 'Trace File Viewer' window is open, displaying a list of SQL queries and their execution details. The window includes a 'Show Chart' button and a 'Show Stats' button.

- <https://github.com/blacksheep-crm/devpops>

The screenshot shows the GitHub repository page for `blacksheep-crm/devpops`. The repository has 5 stars and 6 forks. The main branch is `main` with 1 branch and 0 tags. The repository description states: "Combining utilities from blacksheep and the Siebel community into a unique developer toolkit." The repository contains 82 commits. The file list includes:

File Name	Commit Message	Commit Time
BCRM NEO RR Data.sif	Add files via upload	last month
BCRM Server Manager Service.sif	Add files via upload	last month
BCRM Workspace Helper Data.sif	Add files via upload	2 months ago
BCRM Workspace Helper UI.sif	Add files via upload	2 months ago
FWK Runtime.xml	RR Reader update	5 days ago
README.md	Update README.md	3 days ago
SiebelQueryLang.js	Add files via upload	2 months ago
postload.js	bugfixes, menu is now toolbarizable	3 days ago
ui.multiselect.js	Add files via upload	27 days ago
v	Update v	3 days ago

The right sidebar shows the repository's About section, which includes the description and a link to the README. The Releases section shows no releases published, and the Packages section shows no packages published. The Languages section shows JavaScript at 100.0%.
